

# Staff Report 01

## LESSEE/APPLICANT:

---

Timothy Minton Anderson and Mitzi Joan Marvel, trustees of the Anderson/Marvel Trust Agreement dated September 25<sup>th</sup> 2006

## PROPOSED ACTION:

---

Acceptance of a Lease Quitclaim Deed and Issuance of a General Lease – Recreational Use

## AREA, LAND TYPE, AND LOCATION:

Sovereign land in Lake Tahoe, adjacent to 323 Sierra Drive, near Rubicon Bay, El Dorado County.

## AUTHORIZED USE:

Use and maintenance of two mooring buoys previously authorized by the Commission and one existing mooring buoy not previously authorized by the Commission.

## TERM:

10 years, beginning February 25, 2022.

## CONSIDERATION:

\$819 per year, with an annual Consumer Price Index adjustment; and \$958 for the unauthorized occupation of state lands for the period beginning July 12, 2019, through February 24, 2022.

## SPECIFIC LEASE PROVISIONS:

- Liability insurance in an amount no less than \$1,000,000 per occurrence.
- Lessee expressly acknowledges that a permit from the Tahoe Regional Planning Agency (TRPA) is required for the Authorized Improvements and failure to obtain a permit from TRPA and maintain compliance with that permit may result in TRPA imposing civil penalties and will constitute a breach of the lease.

- Lessee shall not store any personal items or construct any improvements in the Public Trust easement which may impair the public uses of access, navigation, fishing, and lake-related recreation.

## STAFF ANALYSIS AND RECOMMENDATION:

---

### AUTHORITY:

Public Resources Code sections 6005, 6216, 6301, 6501.1, 6503, 6503.5, and 6505.5; California Code of Regulations, title 2, sections 2000 and 2003.

### PUBLIC TRUST AND STATE'S BEST INTERESTS:

On October 19, 2017, the Commission authorized a General Lease – Recreational Use to Timothy Minton Anderson and Mitzi Joan Marvel, Trustees of the Anderson/Marvel Trust Agreement dated September 25th, 2006, for two existing mooring buoys ([Item C14, October 19, 2017](#)). The lease expires on June 30, 2027, but the Applicant wants to quitclaim the existing lease early and enter into a new lease that encompasses a third mooring buoy not previously authorized by the Commission. The Applicant is applying for a General Lease – Recreational Use for the use and maintenance two mooring buoys previously authorized by the Commission and one existing mooring buoy not previously authorized by the Commission. On July 12, 2019, the Applicant registered all moorings with TRPA (Registration No. 10565).

Staff recommends acceptance of a lease quitclaim deed from the current Lessee and issuance of a new lease beginning February 25, 2022, the date of the Commission meeting. The Commission's accounting records show the annual rent for the two previously authorized mooring buoys is paid through June 30, 2022. This rent will be prorated through February 24, 2022, and the remaining amount of \$289.57 paid for the period of February 25, 2022 through June 30, 2022, will be credited towards the rent owed for the new proposed lease.

Staff recommends the Commission accept compensation from the Applicant in the amount of \$958 for the unauthorized occupation of state land for the existing mooring buoy not under lease, for the period beginning July 12, 2019, the day that the moorings were registered with TRPA, through February 24, 2022, the day preceding issuance of the proposed lease.

The three mooring buoys are privately owned and maintained and facilitate recreational boating. Recreational boating is a water-dependent use that is generally consistent with the common law Public Trust Doctrine. The California

Legislature has identified private recreational boating facilities as an authorized use of Public Trust land (Pub. Resources Code, § 6503.5).

The buoys are located directly lakeward of the upland property and occupy a relatively small area of the lake. The proposed lease does not alienate the State's fee simple interest or permanently impair public rights. The lease is limited to a 10-year term, does not grant the lessee exclusive rights to the lease premises, and reserves an easement to the public for Public Trust-consistent uses. Upon termination of the lease, the lessee may be required to remove all improvements from state land and restore the lease premises to their original condition.

The proposed lease requires the lessee to insure the lease premises and indemnify the State for any liability incurred as a result of the lessee's activities thereon. The lease also requires the payment of annual rent to compensate the people of the State for the occupation of the public land involved.

#### CLIMATE CHANGE:

Climate change significantly affects inland non-tidal lakes such as Lake Tahoe. The frequency and severity of natural disasters like flooding, wildfire, drought, extreme heat, and storms is increasing throughout the state of California, including the Sierra Nevada mountains, and will continue to accelerate through the end of the century. Structures along the shores of inland lakes are particularly vulnerable to the more frequent and extreme weather events and shifts in seasonal characteristics.

According to California's Fourth Climate Change Assessment, released in 2018, the most significant impacts of climate change in the Sierra Nevada Region are more intense heat, precipitation extremes, declining snowpacks, and changes in streamflow timing. The long-term warming trend will lead to warmer and shorter winters, and longer and dryer summers. Successive dry and warm winters are resulting in minimal snowpack, increased winter streamflows and floods, and decreased spring and summer runoff. Prolonged low lake levels will become normal. Low lake level conditions can create more expansive beaches and increased shoreline access in dry months. However, these conditions interfere with boat launching and mooring facilities. This impact is most noticeable where the facilities are sited on shallow, low gradient lake bottom locations.

Dry winters will be punctuated with exceedingly wet years where prolonged and excessive precipitation can produce flash floods. High precipitation in these years will result in higher lake levels, causing beaches to narrow and reducing public access. Extra saturation of the soil can increase erosion, especially following intense

wildfire seasons. Surface runoff water may carry more sediment into the lake, adversely impacting water quality and clarity.

Climate change may also lead to more intense and unpredictable winds and storm events. These storms may deviate from prevailing wind patterns for the region. These winds can accelerate shoreline erosion in some areas or cause erosion in areas not typically subject to erosion. Additionally, these winds can increase wave damage on structures and boats along the lake.

The buoys authorized under this lease may require more frequent inspection and maintenance to ensure they are not displaced during storm events. Watercraft moored to buoys, piers, or docks are also vulnerable to damage from high wind events and excessive waves.

#### CONCLUSION:

For all the reasons above, staff believes the issuance of this lease will not substantially interfere with Public Trust needs at this location, at this time, and for the foreseeable term of the proposed lease; is consistent with the common law Public Trust Doctrine; and is in the best interests of the State.

#### OTHER PERTINENT INFORMATION:

---

1. Approval or denial of the application is a discretionary action by the Commission. Each time the Commission approves or rejects a use of sovereign land, it exercises legislatively delegated authority and responsibility as trustee of the State's Public Trust lands as authorized by law. If the Commission denies the application, the Applicant may be required to remove the three mooring buoys and restore the premises to their original condition. Upon expiration or prior termination of the lease, the lessee also has no right to a new lease or to renewal of any previous lease.
2. This action is consistent with the "Leading Climate Activism" and "Meeting Evolving Public Trust Needs" Strategic Focus Areas of the Commission's 2021-2025 Strategic Plan.
3. Acceptance of the quitclaim deed is not a project as defined by the California Environmental Quality Act (CEQA) because it is an administrative action that will not result in direct or indirect physical changes in the environment.

Authority: Public Resources Code section 21065 and California Code of Regulations, title 14, section 15378, subdivision (b)(5).

4. Staff recommends that the Commission find that issuance of the lease is exempt from the requirements of CEQA as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; California Code of Regulations, title 2, section 2905, subdivision (a)(2).

Authority: Public Resources Code section 21084 and California Code of Regulations, title 14, section 15300 and California Code of Regulations, title 2, section 2905.

## EXHIBITS:

---

- A. Land Description
- B. Site and Location Map

## RECOMMENDED ACTION:

---

It is recommended that the Commission:

### CEQA FINDING:

Find that issuance of the lease is exempt from the requirements of CEQA pursuant to California Code of Regulations, title 14, section 15061 as a categorically exempt project, Class 1, Existing Facilities; California Code of Regulations, title 2, section 2905, subdivision (a)(2).

### PUBLIC TRUST AND STATE'S BEST INTERESTS:

Find that the proposed lease will not substantially impair the public rights to navigation and fishing or substantially interfere with the Public Trust needs and values at this location, at this time, and for the foreseeable term of the lease; is consistent with the Public Trust Doctrine; and is in the best interests of the State.

### AUTHORIZATION:

1. Authorize acceptance of a lease quitclaim deed, dated January 13, 2022 and effective February 25, 2022, of Lease 5322, a General Lease – Recreational Use, issued to Timothy Minton Anderson and Mitzi Joan Marvel, trustees of the Anderson/Marvel Trust Agreement dated September 25<sup>th</sup> 2006.
2. Authorize acceptance of compensation from the Applicant in the amount of \$958 for unauthorized occupation of State land for the period beginning July 12, 2019 to February 24, 2022.

3. Authorize issuance of a General Lease – Recreational Use to the Applicant beginning February 25, 2022, for a term of 10 years, for the use and maintenance of three mooring buoys, as described in Exhibit A and shown on Exhibit B (for reference purposes only) attached and by this reference made a part hereof; annual rent in the amount of \$819, with an annual Consumer Price Index adjustment; and liability insurance in an amount no less than \$1,000,000 per occurrence.

**EXHIBIT A**

**LEASE 5322**

**LAND DESCRIPTION**

Three parcels of submerged lands situated in the bed of Lake Tahoe, lying adjacent to fractional Section 32, Township 14 North, Range 17 East, M.D.B.&M., as shown on Official Government Township Plat approved January 17, 1866, County of El Dorado, State of California, more particularly described as follows:

Three circular parcels of land, each being 50 feet in diameter, underlying three existing buoys lying adjacent to those parcels described in Grant Deed recorded December 21, 2010 as Document Number 2010-0062482-00 in Official Records of said County.

Accompanying plat is hereby made part of this description.
