

Staff Report 09

APPLICANT:

Brockway Shores

PROPOSED ACTION:

Issuance of a General Lease – Recreational Use

AREA, LAND TYPE, AND LOCATION:

Sovereign land in Lake Tahoe, adjacent to 144 Chipmunk Street, near Brockway, Placer County.

AUTHORIZED USE:

Use and maintenance of an existing pier, 20 mooring buoys, and two marker buoys.

TERM:

10 years, beginning on September 28, 2023.

CONSIDERATION:

\$7,175 per year, with an annual Consumer Price Index Adjustment.

SPECIFIC LEASE PROVISIONS:

- Liability insurance in an amount no less than \$2,000,000 per occurrence.
- Lessee expressly acknowledges that a permit from the Tahoe Regional Planning Agency (TRPA) is required for the Authorized Improvements and failure to obtain a permit from TRPA and maintain compliance with that permit may result in TRPA imposing civil penalties and will constitute a breach of the lease.
- Lessee shall not store any personal items or construct any improvements in the Public Trust easement which may impair the public's right of access for navigation, fishing, and public trust consistent with recreational uses.
- Lessee shall provide for the use of the mooring buoys by all members of the Association in a fair and equitable manner. Lessee shall provide a copy of Lessee's buoy allotment program, which identifies how the buoys will be

managed, maintained, and distributed for use by members no later than 90 days after the effective date of the Lease.

- Lessee agrees and acknowledges that the hazards associated with climate change may require additional maintenance or protection strategies regarding the improvements on the lease premises.

STAFF ANALYSIS AND RECOMMENDATION:

AUTHORITY:

Public Resources Code sections 6005, 6216, 6301, 6501.1, 6503, 6503.5, and 6505.5; California Code of Regulations, title 2, sections 2000 and 2003.

PUBLIC TRUST AND STATE'S BEST INTERESTS:

On February 21, 2014, the Commission authorized a General Lease – Recreational Use to Brockway Shores for the use and maintenance of an existing pier, 20 mooring buoys, and two marker buoys ([Item C35, February 21, 2014](#)). The lease was authorized for a 10-year term, commencing September 28, 2013. On August 23, 2018, the Commission authorized a revision of rent to apply for the updated marker buoy rent ([C03, August 23, 2018](#)). The lease will expire September 27, 2023.

The Applicant is applying for a General Lease – Recreational Use for the use and maintenance of an existing pier, 20 mooring buoys, and two marker buoys. On January 27, 2022, all 20 mooring buoys were registered with TRPA (Registration No. 10613).

The pier, 20 mooring buoys, and two marker buoys have existed for many years at this location. The topography is sandy and flat, making the shoreline accessible to pedestrians in this area. The pier is built on pilings, and public access for pedestrians and lake-related activities are available at varying water levels underneath the pier within the Public Trust Easement.

The pier, 20 mooring buoys, and two marker buoys are privately owned and maintained and facilitate recreational boating. Recreational boating is a water-dependent use that is generally consistent with the common law Public Trust Doctrine. The California Legislature has identified private recreational boating facilities as an authorized use of Public Trust Land. (Pub. Resources Code, § 6503.5.)

The buoys are located directly lakeward of the upland property and occupy a relatively small area of the lake. The proposed lease does not alienate the State's fee simple interest or permanently impair public rights.

The lease is limited to a 10-year term, does not grant the lessee exclusive rights to the lease premises, and reserves an easement to the public for Public Trust-consistent uses. Upon termination of the lease, the lessee may be required to remove all improvements from state land and restore the lease premises to their original condition. The proposed lease requires the lessee to insure the lease premises and indemnify the State for any liability incurred as a result of the lessee's activities thereon. The lease also requires the payment of annual rent to compensate the people of the State for the occupation of the public land involved.

CLIMATE CHANGE:

Climate change significantly affects inland non-tidal lakes such as Lake Tahoe. The frequency and severity of natural disasters like flooding, wildfire, drought, extreme heat, and storms are increasing throughout the state of California, including the Sierra Nevada mountains, and will continue to accelerate through the end of the century. Structures along the shores of inland lakes are particularly vulnerable to the more frequent and extreme weather events and shifts in seasonal characteristics.

According to California's Fourth Climate Change Assessment, released in 2018, the most significant impacts of climate change in the Sierra Nevada Region are more intense heat, precipitation extremes, declining snowpacks, and changes in streamflow timing. The long-term warming trend will lead to warmer and shorter winters, and longer and dryer summers. Successive dry and warm winters are resulting in minimal snowpack, increased winter stream flows and floods, and decreased spring and summer runoff. Prolonged low lake levels will become normal. Low lake level conditions can create more expansive beaches and increased shoreline access in dry months. However, these conditions interfere with boat launching and mooring facilities. This impact is most noticeable where the facilities are sited on shallow, low gradient lake bottom locations.

Dry winters will be punctuated with exceedingly wet years where prolonged and excessive precipitation can produce flash floods. High precipitation in these years will result in higher lake levels, causing beaches to narrow and reducing public access. Extra saturation of the soil can increase erosion, especially following intense wildfire seasons. Surface runoff water may carry more sediment into the lake, adversely impacting water quality and clarity.

Climate change may also lead to more intense and unpredictable storm events and winds. These storms may deviate from prevailing wind patterns for the region. These winds can accelerate shoreline erosion in some areas or cause erosion in

areas not typically subject to erosion. Additionally, these winds can increase wave damage on structures and boats along the lake.

Improvements authorized under this lease may require more frequent inspection and maintenance to ensure they are not displaced during storm events. Watercraft moored to buoys, piers, or docks are also vulnerable to damage from high wind events and excessive waves.

CONCLUSION:

For all the reasons above, staff believes the issuance of this lease will not substantially interfere with Public Trust needs at this location, at this time, and for the foreseeable term of the proposed lease; is consistent with the common law Public Trust Doctrine; and is in the best interests of the State.

OTHER PERTINENT INFORMATION:

1. Approval or denial of the application is a discretionary action by the Commission. Each time the Commission approves or rejects a use of sovereign land, it exercises legislatively delegated authority and responsibility as trustee of the State's Public Trust lands as authorized by law. If the Commission denies the application, the Applicant as prior lessee may be required to remove the pier, 20 mooring buoys and two marker buoys and restore the premises to their original condition. The lessee has no right to a new lease or to renewal of any previous lease.
2. This action is consistent with the "Leading Climate Activism" and "Meeting Evolving Public Trust Needs" Strategic Focus Areas of the Commission's 2021-2025 Strategic Plan.
3. Staff recommends that the Commission find that this activity is exempt from the requirements of the California Environmental Quality Act (CEQA) as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; California Code of Regulations, title 2, section 2905, subdivision (a)(2).

Authority: Public Resources Code section 21084, California Code of Regulations, title 14, section 15300, and California Code of Regulations, title 2, section 2905.

EXHIBITS:

- A. Land Description
- B. Site and Location Map

RECOMMENDED ACTION:

It is recommended that the Commission:

CEQA FINDING:

Find that this activity is exempt from the requirements of CEQA pursuant to California Code of Regulations, title 14, section 15061 as a categorically exempt project, Class 1, Existing Facilities, California Code of Regulations, title 2, section 2905, subdivision (a)(2).

PUBLIC TRUST AND STATE'S BEST INTERESTS:

Find that the proposed lease will not substantially impair the public rights to navigation and fishing or substantially interfere with the Public Trust needs and values at this location, at this time, and for the foreseeable term of the lease; is consistent with the common law Public Trust Doctrine; and is in the best interests of the State.

AUTHORIZATION:

Authorize issuance of General Lease – Recreational Use to the Applicant beginning September 28, 2023, for a term of 10 years, for the use and maintenance of a pier, 20 mooring buoys, and two marker buoys, as described in Exhibit A and shown on Exhibit B (for reference purposes only) attached and by this reference made a part hereof; annual rent in the amount of \$7,175, with a Consumer Price Index adjustment; and liability insurance in an amount no less than \$2,000,000 per occurrence.

EXHIBIT A

PRC 4195.1

LAND DESCRIPTION

Twenty-three (23) parcels of submerged land situate in the bed of Lake Tahoe, lying adjacent to Lot 7 fractional Section 19, Township 16 North, Range 18 East, MDM., as shown on Official Government Township Plat approved January 24, 1875, County of Placer, State of California, and more particularly described as follows:

PARCEL 1 – PIER

All those lands underlying an existing pier with catwalks lying adjacent to those parcels as described in that Quitclaim Deed recorded January 11, 1973 in Volume 1465, Page 406 in Official Records of said County.

TOGETHER WITH any applicable Impact Area(s).

EXCEPTING THEREFROM any portion(s) lying landward of elevation 6223 feet LTD on the shoreline of said Lake Tahoe.

PARCELS 2 THRU 23 – (CONTAINING 20 MOORING BUOYS AND 2 MARKER BUOYS)

Twenty-two (22) circular parcels of land, each being 50 feet in diameter, underlying existing buoys, adjacent to those parcels as described in, that Quitclaim Deed recorded January 11, 1973 in Volume 1465, Page 406 in Official Records of said County.

Accompanying plat is hereby made part of this description.
