

# Staff Report 19

**APPLICANT:**

---

Sisters of Saint Dominic, Congregation of the Most Holy Name

**PROPOSED ACTION:**

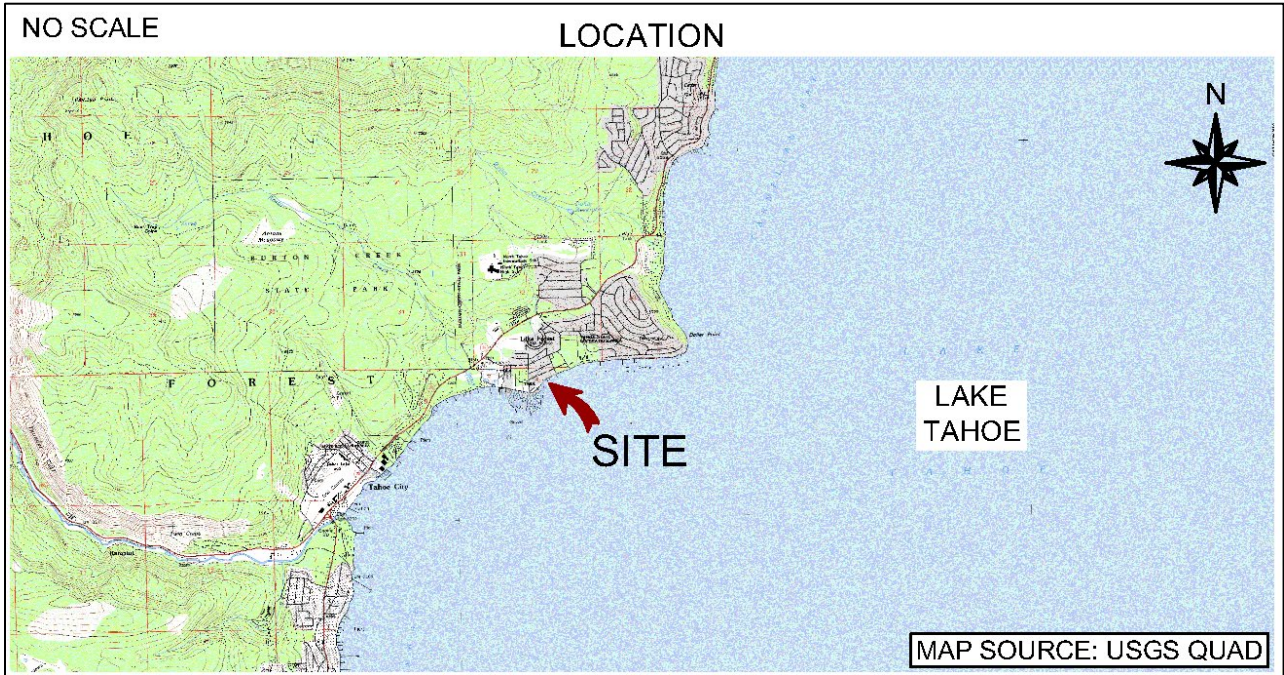

---

Issuance of a General Lease – Recreational Use

**AREA, LAND TYPE, AND LOCATION:**

Sovereign land located in Lake Tahoe, adjacent to 2800 Lake Terrace Avenue, near Tahoe City, Placer County (as shown in Figure 1).

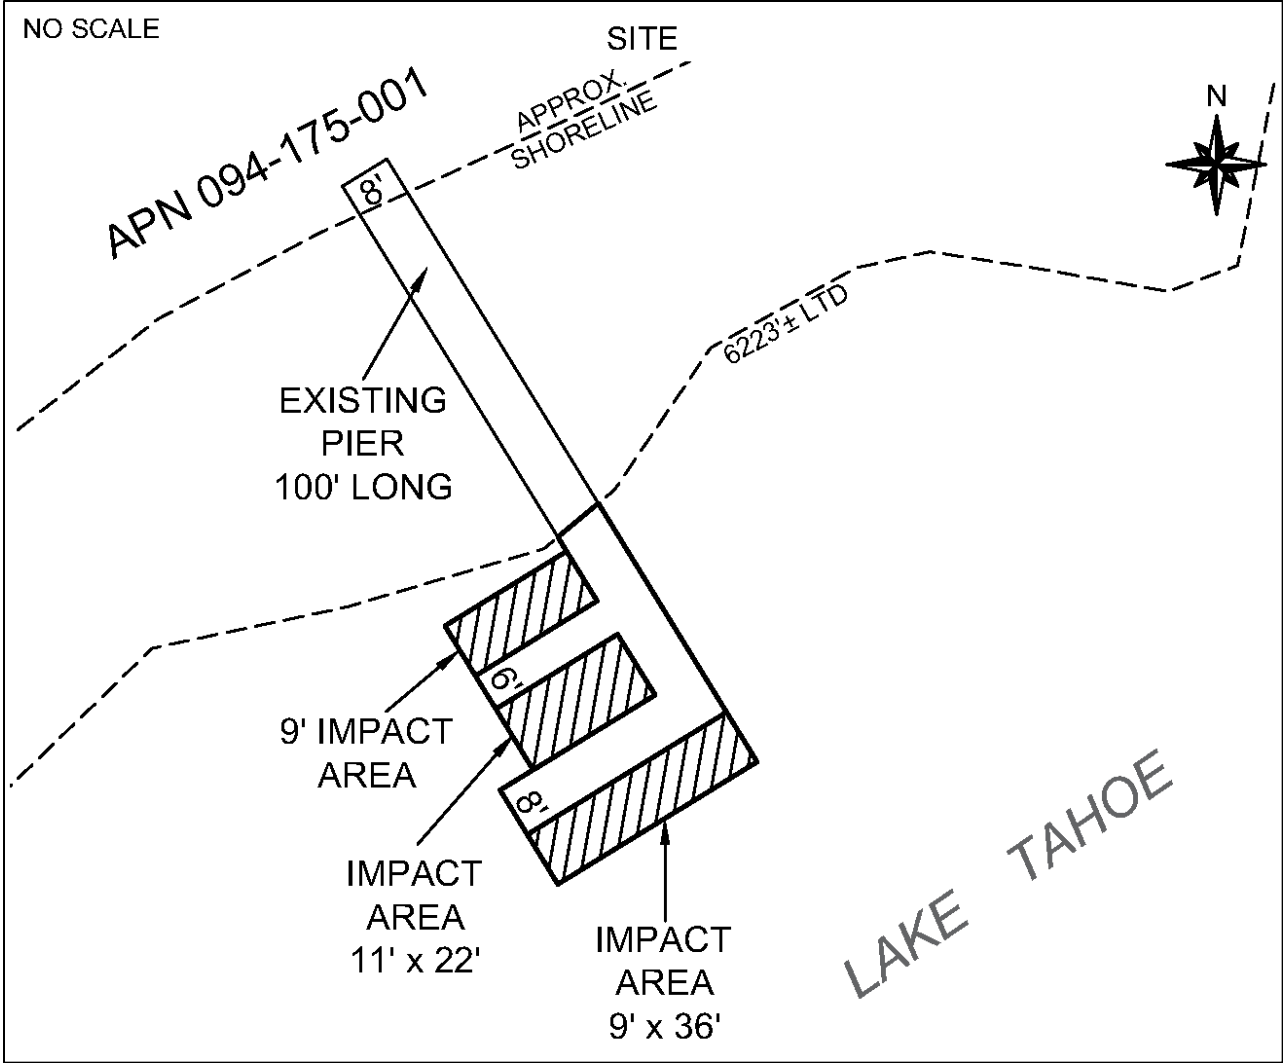

**Figure 1. Location**

**AUTHORIZED USE:**

Use of an existing pier with two fingers and one boat slip (as shown in Figure 2).

**Figure 2. Site Map**

NOTE: This depiction of the lease premises is based on unverified information provided by the applicant or other parties and is not a waiver or limitation of any State interest in the subject or any other property.

**TERM:**

10 years, beginning September 20, 2023.

**CONSIDERATION:**

\$985 per year, with an annual Consumer Price Index adjustment.

**SPECIFIC LEASE PROVISIONS:**

- Liability insurance in an amount no less than \$1,000,000 per occurrence.

- Lessee expressly acknowledges that a permit or registration from the Tahoe Regional Planning Agency (TRPA) may be required for the Authorized Improvements and failure to obtain a permit or registration from TRPA and maintain compliance with that permit or registration may result in TRPA imposing civil penalties and will constitute a breach of this lease.
- Lessee shall not store any personal items or construct any improvements in the Public Trust easement which may impair the public's right of access for navigation, fishing, and Public Trust consistent recreational uses.
- Lessee agrees and acknowledges that the hazards associated with climate change may require additional maintenance or protection strategies regarding the improvements on the lease premises.

## **STAFF ANALYSIS AND RECOMMENDATION:**

---

### **AUTHORITY:**

Public Resources Code sections 6005, 6216, 6301, 6501.1, 6503, 6503.5, and 6505.5; California Code of regulations, title 2, sections 2000 and 2003.

### **PUBLIC TRUST AND STATE'S BEST INTERESTS:**

On September 20, 2013, the Commission authorized a General Lease - Recreational Use to Sisters of Saint Dominic, Congregation of the Most Holy Name, for the use of an existing pier adjacent to 2800 Lake Terrace Avenue, near Tahoe City, Placer County ([Item C40, September 20, 2013](#)).

On June 21, 2018, the Commission authorized an amendment of this lease to replace the existing lease Exhibits, which identified a 10-foot impact area around the pier, with new lease Exhibits, which identified a 9-foot impact area around the pier. Concurrently, staff performed a rent review on this lease as directed by lease terms and conditions ([Item C25, June 21, 2018](#)). This resulted in the modification of annual rent from \$1,888 to \$686. This Lease will expire on September 19, 2023.

The Applicant is now applying for a General Lease – Recreational Use for the use of the existing pier with two fingers and one boat slip. Staff recommends issuance of a General Lease – Recreational Use to the Applicant, to take effect on September 20, 2023.

The subject pier is privately owned and maintained and facilitates recreational boating. Recreational boating is a water-dependent use that is generally consistent with the common law Public Trust Doctrine. The California Legislature has identified private recreational boating facilities as an authorized use of Public Trust land. (Pub.

Resources Code, §6503.5.) TRPA registration for the pier's boat slip is current as of January 23, 2023 (Registration No. 10741).

The pier is built on pilings with the area immediately upland of the pier being gently sloped and sandy. The immediate upland topography is easily traversable with public access for pedestrians and lake-related activities available at varying water levels by passing over the pier within the Public Trust easement. Public access over the pier is facilitated by the presence of two short stairways located on either side of the pier which allow access to the pier deck within the Public Trust easement. The proposed lease includes a provision that the Applicant post signs identifying the designated public passageway on each of the staircases which provide public passage over the pier. These signs shall be in place at all times and will ensure that the public is aware of the designated passageway within the Public Trust easement.

The proposed lease does not alienate the State's fee simple interest or permanently impair public rights. The lease is limited to a 10-year term, does not grant the lessee exclusive rights to the lease premises, and reserves an easement to the public for Public Trust-consistent uses. Upon termination of the lease, the lessee may be required to remove all improvements from State land and restore the lease premises to their original condition.

The proposed lease requires the lessee to insure the lease premises and indemnify the State for any liability incurred as a result of the lessee's activities thereon. The lease also requires the payment of annual rent to compensate the people of the State for the occupation of the public land involved.

### **CLIMATE CHANGE:**

Climate change significantly affects inland non-tidal lakes such as Lake Tahoe. The frequency and severity of natural disasters like flooding, wildfire, drought, extreme heat, and storms are increasing throughout the state of California, including the Sierra Nevada mountains, and will continue to accelerate through the end of the century. Structures along the shores of inland lakes are particularly vulnerable to the more frequent and extreme weather events and shifts in seasonal characteristics.

According to [California's Fourth Climate Change Assessment](#), released in 2018, the most significant impacts of climate change in the Sierra Nevada Region are more intense heat, precipitation extremes, declining snowpacks, and changes in streamflow timing. The long-term warming trend will lead to warmer and shorter winters, and longer and dryer summers. Successive dry and warm winters are resulting in minimal snowpack, increased winter stream flows and floods, and

decreased spring and summer runoff. Prolonged low lake levels will become normal. Low lake level conditions can create more expansive beaches and increased shoreline access in dry months. However, these conditions interfere with boat launching and mooring facilities. This impact is most noticeable where the facilities are sited on shallow, low gradient lake bottom locations.

Dry winters will be punctuated with exceedingly wet years where prolonged and excessive precipitation can produce flash floods. High precipitation in these years will result in higher lake levels, causing beaches to narrow and reducing public access. Extra saturation of the soil can increase erosion, especially following intense wildfire seasons. Surface runoff water may carry more sediment into the lake, adversely impacting water quality and clarity.

Climate change may also lead to more intense and unpredictable storm events and winds. These storms may deviate from prevailing wind patterns for the region. These winds can accelerate shoreline erosion in some areas or cause erosion in areas not typically subject to erosion. Additionally, these winds can increase wave damage on structures and boats along the lake.

Improvements authorized under this lease may require more frequent inspection and maintenance to ensure they are not displaced during storm events. Watercraft moored to buoys, piers, or docks are also vulnerable to damage from high wind events and excessive waves.

### **CONCLUSION:**

For all the reasons above, staff believes the issuance of this lease will not substantially interfere with Public Trust needs at this location, at this time, and for the foreseeable term of the proposed lease; is consistent with the common law Public Trust Doctrine; and is in the best interests of the State.

### **OTHER PERTINENT INFORMATION:**

---

1. Approval or denial of the application is a discretionary action by the Commission. Each time the Commission approves or rejects a use of sovereign land, it exercises legislatively delegated authority and responsibility as trustee of the State's Public Trust lands as authorized by law. If the Commission denies the application, the Applicant may be required to remove the pier and return the premises to their original condition. The lessee has no right to a new lease or to renewal of any previous lease.

2. This action is consistent with the “Leading Climate Activism” and “Meeting Evolving Public Trust Needs” Strategic Focus Areas of the Commission’s 2021-2025 Strategic Plan.
3. Staff recommends that the Commission find that this activity is exempt from the requirements of the California Environmental Quality Act (CEQA) as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; California Code of Regulations, title 2, section 2905, subdivision (a)(2).

Authority: Public Resources Code section 21084, California Code of Regulations, title 14, section 15300, and California Code of Regulations, title 2, section 2905.

## **RECOMMENDED ACTION:**

---

It is recommended that the Commission:

### **CEQA FINDING:**

Find that the activity is exempt from the requirements of CEQA pursuant to California Code of Regulations, title 14, section 15061 as a categorically exempt project, Class 1, Existing Facilities; California Code of Regulations, title 2, section 2905, subdivision (a)(2).

### **PUBLIC TRUST AND STATE’S BEST INTERESTS:**

Find that the proposed lease will not substantially impair the public rights to navigation and fishing or substantially interfere with Public Trust needs and values at this location, at this time, and for the foreseeable term of the lease; is consistent with the common law Public Trust Doctrine; and is in the best interest of the State.

### **AUTHORIZATION:**

Authorize issuance of a General Lease – Recreational Use to the Applicant beginning September 20, 2023, for a term of 10 years, for the use of an existing pier with two fingers and one boat slip; annual rent in the amount of \$985, with an annual Consumer Price Index adjustment; and liability insurance in an amount no less than \$1,000,000 per occurrence.
