Subject: Concerns Regarding Proposed purchase of Slab City for the purpose of a Community Land Trust for Affordable Housing

Dear Commissioners of the California State Lands Commission,

We are writing to express concerns of the proposed purchase of Slab City, an off grid desert community located in imperial County, Ca, and the proposed establishment of a "Community Land Trust for affordable housing" intended by Slab City Community Group Inc. (SCCGI) and or its affiliated non-profit organizations, (S36 CLT & Salvation Mountain, inc)

We, the residents of Slab City, object:

We value our off-grid, self-governing community and its distinct culture. We strongly object to any attempts to impose an improper community land trust on Slab City.

Slab City has developed into a unique and self-sustaining community characterized by its off-grid lifestyle, individual autonomy, and artistic expression.

We have cultivated a culture that thrives on self-governance and respects the principles of personal choice and freedom.
