such outstanding bonds, thereafter, and until there may be other such bonds outstanding, such money shall be paid into the Public Improvement Reserve Fund, so long as the amount of money therein shall be not more than the authorized maximum for said fund. Thereafter, whenever said funds shall be filled, and until such money shall be further required for, first, the General Bond Redemption and Interest Fund, such money, as received, shall be paid into the General Purpose Fund.

(d) The money deposited in the General Bond Redemption and Interest Fund may, from time to time, be invested in accordance with the provisions of applicable legislation of the State of California providing for the investment and reinvestment of any moneys in any sinking fund, or any surplus moneys in the treasury of cities in the State. (5) The net receipts to the City of Long Beach from the sale of dry gas as such derived from, or allocated or assigned to, or attributable to production from, or allocated or assigned to, the Long Beach tidelands, and which said dry gas is not received into the system of the city's municipal gas department.

(6) The repayment of all sums of money advanced from said fund for the purpose of financing participants in unit agreements and unit operating agreements.

All such reimbursement transfers shall be made by journal entry on the books of the city in the manner determined by the City Manager.

Sec. 260.2 (a) There is hereby created and established a special fund, to be designated as the "Tideland Operating Fund", which shall be a continuing fund not subject to transfer at the close of the fiscal year. Revenue from the following sources shall be deposited in the city treasury to the credit of said fund:

(1) All net proceeds and revenues, exclusive of net proceeds and revenues attributable to oil and gas operations, derived from the conduct and maintenance of operations, facilities, and

other improvements situated on the Long Beach tidelands outside of the Harbor District, and from operations, facilities and other improvements situated on other lands outside of the Harbor District owned by the city to the proportionate extent that such lands were acquired with, or such operations, facilities and improvements were constructed or implemented with, tideland trust moneys.

Article XXVIII

Sec. 315. (a) There is hereby created a department of the City of Long Beach to be known as the Department of Oil Properties. This department shall consist of a Director of Oil Properties and such assistants, deputies, clerks, attaches and other employees that the City Council may from time to time prescribe and authorize. The Director of Oil Properties shall be appointed, with the confirmation of the City Council, by the City Manager, and shall serve during the pleasure of the City Manager. The Director of Oil Properties shall appoint, with the

approval of the City Manager, all assistants, deputies, clerks, attaches and other employees of said department, who shall serve during the pleasure of the City Manager, subject to the provisions of Article XI of this charter.

(b) Subject to the supervision and control of the City Manager in all matters, the Director of Oil Properties shall have charge of and be responsible for the administration of the drilling for, developing, producing, extracting, processing, taking or removing, storing and disposing of oil, gas and other hydrocarbon substances by the City of Long Beach to the extent reserved to said City in any and all leases, contracts or other agreements between said City and other persons, firms, corporations or associations pursuant to the provisions of this charter. The Director of Oil Properties shall also have charge of and be responsible for the administration of all subsidence control and pressure maintenance programs, and shall perform such other duties as may be required of him by this charter, by the City Manager, or by ordinance adopted by the City Council.

Sec 316. The power of the City to drill for, develop, produce, extract, process, take or remove, store and dispose of oil, gas and other hydrocarbon substances, of whatsoever kind, from, under, across or through any and all lands, including all tide and submerged lands, whether filled or unfilled, and whether such lands belong to the City of Long Beach, or whether such lands be those in or from which the City may now or hereafter have the right so to drill for, develop, produce, extract, process, take or remove, store and dispose of oil, gas and other hydrocarbon substances, shall be exercised by such means, or methods, or in such manner as the City Council may authorize, including, but not limited to, the following:

(1) By agreements permitting other persons, firms, corporations or associations to drill for, develop, produce, extract, process, take or remove, store or dispose of oil, gas or other hydrocarbon substances for and in consideration of a division of the proceeds, if any, of such operations.

(2) By agreements with other persons, firms, corporations or associations whereby the City of Long Beach shall pay a cash consideration for the performance of such agreements; and

(3) Directly by employees of the City under the supervision and direction of the City Manager.

Provided, that any and all agreements referred to in subsections (1) and (2) of this section shall be subject to the provisions of section 317 of this charter; and provided that any and all agreements referred to in subsection (1) of this section shall be for a term or period as the City Council may determine, however, not to exceed such as shall be provided by law, if any, and an adequate portion of the proceeds shall at all times be reserved to the City of Long Beach and the full and sole consideration to the respective parties to such agreements shall

be the apportionment to such parties of the proceeds, if any, from the operations provided for by such agreements.

Provided, further, that before such power may be exercised as to tide and submerged lands, whether filled or unfilled, or as to such lands as are held subject to the tideland trust, said City Council, as to such lands outside the Harbor District, and the Board of Harbor Commissioners, as to such lands within the Harbor District, shall first determine, by resolution, that such lands, or parts thereof, intended to be so used are not required, and with reasonable certainty will not be required, for a period of thirty-five (35) years or for such term or period of the lease, contract or other agreement between the City of Long Beach and other persons, firms, corporations or associations pursuant to which such powers may be exercised and relating to such lands or parts thereof, for the promotion or development of commerce, navigation or fishery.

With respect to tide and submerged lands, whether filled or unfilled, if the City Council shall elect to drill for, develop, produce, extract, process, take or remove, store and dispose of oil, gas and other hydrocarbon substances directly by its own employees and under its own supervision and direction, or by agreements with other persons, firms, corporations or associations, whereby the City of Long Beach shall pay a cash consideration for the performance of such agreements, said City Council may commence and prosecute such operations by using moneys derived from, or allocated or assigned to, or attributable to production from or allocated or assigned to all tide and submerged lands granted to the City by the State of California and to any lands within the city limits of the City of Long Beach belonging to the City and which were purchased or acquired, in whole or in part, by use of tideland trust moneys.

Sec. 317. (a) The City Council may authorize and direct the execution of leases, contracts or other agreements between the City of Long Beach and other persons, firms, corporations or associations to drill for, develop, produce, extract, process, take or remove, store and dispose of oil, gas and other hydrocarbon substances from, under, across or through any and all lands including tide and submerged lands, whether filled or unfilled, belonging to the City of Long Beach, or such lands in or from which the City may now or hereafter have the right so to drill for, develop, produce, extract, process, take or remove, store and dispose of oil, gas and other hydrocarbon substances for the term or period in each instance not to exceed such as provided by law; provided, any such lease, contract or other agreement shall be made and entered into with the highest responsible bidder upon competitive bidding in the manner and form as shall be approved by said City Council, after publication of notice calling for bids in the official newspaper of the City; provided, further, that with respect to such leases, contracts or other agreements relating to such tide and submerged lands, whether filled or unfilled,

that all specifications and forms for the purpose of inviting bids in connection therewith shall be approved by the State Lands Commission prior to publication of notice to bidders, that such leases, contracts or other agreements shall be of no effect unless and until approved by said State Lands Commission, that such leases, contracts or other agreements shall include all provisions necessary to assure compliance with the requirements of applicable laws of the State of California, including Chapter 29, Statutes of 1956, First Extraordinary Session, and Chapter 138, Statutes of 1964, First Extraordinary Session, or such as may be lawfully required by subsequently enacted legislation, as such legislation is, has been or may hereafter be construed by the courts having jurisdiction thereof; nor shall such leases, contracts or other agreements be modified or amended in any respect without the advance consent of said State Lands Commission thereto; provided, further, said City Council may authorize the execution of any such lease, contract or other agreement between the City and other persons, firms, corporations or associations, including such lands, other than tide and submerged lands granted to the City by the State of California, in a community lease embracing adjoining lands not belonging to the City without such competitive bidding.

Notwithstanding the competitive bidding requirement hereinabove provided, the City Council may, by negotiation and without resort to competitive bidding, extend the term of any lease, contract or other agreement providing for the drilling for, developing, producing, extracting, processing, taking or removing, storing and disposing of oil, gas or other hydrocarbon substances, and, in connection therewith, amend and modify the provisions, conditions and limitations thereof, including any provision for the division of the proceeds from oil and gas operations conducted thereunder, concerning the lands above referred to, except as to those leases, contracts or other agreements relating to the exploration and development of the tide and submerged lands granted to the City by the State of California as hereinafter in this subdivision (a) referred to; provided, however, that any such extension of term, including the existing unexpired term of any such lease, contract or other agreement, shall not exceed twenty-five (25) years.

The City Council shall not have the power, by negotiation, to extend the term, as the same is presently provided, in either or both of the following tide and submerged lands drilling and operating contracts:

(1) Richfield Oil Corporation Parcel "A", dated March 12, 1947, and recorded August 15, 1947, in Book 24847 at page 252, Official Records in the Office of the County Recorder of Los Angeles County, California;

(2) Drilling and Operating Contract (Long Beach Harbor Department Tidelands Parcel) entered into as of the 21st day of March, 1964, by and between Signal Oil and Gas Company,

Standard Oil Company of California, Humble Oil & Refining Company, Continental Oil Company, CM Oil Company, and Long Beach Oil Development Company, therein collectively referred to as the "Contractor", and Board of Harbor Commissioners of the City of Long Beach, for and on behalf of the City of Long Beach, and on its own behalf in its official capacity, therein referred to as the "City", or in any other lease, contract or other agreement providing for the drilling for, developing, producing, extracting, processing, taking or removing, storing and disposing of oil, gas or other hydrocarbon substances from the tide and submerged lands granted to the City by the State of California.

The power of extension hereby conferred is in addition to all other powers possessed by the City Council with respect to any such lease, contract or other agreement heretofore entered into and this subdivision is not intended, nor should it be construed, as divesting or in any manner diminishing any power which the City Council now has, with respect to matters not involving an extension of term, to amend or modify any such lease, contract or other agreement for the remainder of the term thereof.

(b) Notwithstanding the determination requirement contained in the second unnumbered paragraph of section 316, or the limitation as to term contained in subdivision (a) of this section, the City Council may enter into cooperative or unit agreements with respect to the lands or any interest in lands referred to in subdivision (a) of this section, all as more particularly hereinafter provided.

Whenever the City Council may determine it is in the interest of safeguarding life, health, welfare or property, or that the subsidence or sinking of any of said lands or abutting lands may possibly be arrested or ameliorated thereby, or that it is in the interest of increasing the ultimate recovery of oil or gas from such lands or of the protection of the oil or gas in said lands from unreasonable waste, provision may be made in any lease, contract or other agreement so as to provide, and any existing lease, contract or other agreement may be amended so as to provide, that any such lands may, at the direction of the City Council, be included in a cooperative or unit agreement with other lands belonging to the City, or with other lands not belonging to the City, for the purpose of bringing about the cooperative development or operation of all or a part or parts of the oil and gas field in which such lands are located, or for the purpose of bringing about the development or operation of all or a part or parts of such field as a unit, or for the purpose of fixing the time, location and manner of drilling and operating of wells for the production of oil or gas, or providing for the return or injection of gas, water or other substances into the subsurface of the earth. In the event the City Council determines that any such lands, including lands not subject to any lease, contract or other agreement, should be included in such a cooperative

or unit agreement, the City Council shall have the power to negotiate and authorize the execution of all agreements necessary to effectuate, implement or modify such arrangement, including the power to bind and commit any such lands to a cooperative or unit agreement for the full term thereof and irrespective of the termination date of any lease, contract or other agreement then in effect as to such lands. The term of any such cooperative or unit agreement may be for such period or periods, including indefinite periods, as the City Council shall determine, and the competitive bidding provisions in this charter prescribed shall not apply to the making, implementation or modification of any such cooperative or unit agreement. The provisions of any existing lease, contract or other agreement between the City Council, the Board of Harbor Commissioners or the Board of Water Commissioners and any other person, firm, corporation or association relating to the drilling for, developing, producing, extracting, processing, taking or removing, storing and disposing of oil, gas or other hydrocarbon substances derived from the lands which are subject to such agreement may be amended, by negotiation and without resort to competitive bidding, to the extent the City Council shall determine is necessary or desirable in order to institute or effectuate such a cooperative or unit agreement; provided, however, no such amendment and no such cooperative or unit agreement nor any subsequent modification or amendment thereof, shall ever be construed as having the effect, either directly or indirectly, of extending the term of any lease, contract or other agreement then in effect as to such lands beyond the termination date therein expressly provided, but the foregoing shall not prevent the City Council from extending the term of any such lease, contract or other agreement as permitted by this charter or applicable law.

Before any tide or submerged lands, whether filled or unfilled, may be included in or committed to any cooperative or unit agreement, or before any modification or amendment of any cooperative or unit agreement which includes such lands may be made

1. The City Council, as to such lands outside the Harbor District, and the Board of Harbor Commissioners, as to such lands within the Harbor District, shall first determine, by resolution, that the surface of such lands, or that portion of the surface intended to be utilized, is not required, and with reasonable certainty will not be required, during the term of the proposed cooperative or unit agreement for the promotion or development of commerce, navigation or fishery; and

2. The State Lands Commission shall approve of any such agreement or any amendments thereto or modifications thereof.

Notwithstanding any other subdivision or section in this charter, the power of the City Council to enter into unit or cooperative agreements as hereinabove granted shall include the power to do such acts or things and to incur such commitments and obligations as are customary in unit or cooperative

agreements. Without limiting the generality of the foregoing, the City Council shall have the right and power, anything to the contrary in section 254 of this charter notwithstanding, to give customary indemnities, liens on production, and other rights to the operator and other parties to the cooperative or unit agreement, and to share in the expenses of any such cooperative or unit agreement.

No agreement providing for a cooperative or unit development plan shall be authorized, the effect of which would permit the construction or installation of derricks, machinery or apparatus on the surface of any land for the purpose of drilling for, pumping or producing oil, gas or other hydrocarbon substances in any area of the City in which such operations shall then be prohibited by regulatory or initiative ordinance.

Sec 318. With respect to any and all leases, contracts or other agreements, including cooperative or unit agreements, relating to the drilling for, developing, producing, extracting, processing, taking or removing, storing and disposing of oil, gas or other hydrocarbon substances, heretofore entered into pursuant to the provisions of this charter, wherein the Board of Harbor Commissioners or the Board of Water Commissioners shall be a party thereto, the City Council shall be deemed to be, and shall constitute, the Board of Harbor Commissioners and the Board of Water Commissioners and shall act in the place and stead thereof, and the City Manager shall be deemed to be, and shall constitute, the General Manager of the Harbor Department or the General Manager of the Water Department and all powers and duties therein conferred or imposed upon said respective general managers are hereby conferred and imposed upon the City Manager, who may delegate the exercise of such powers and duties to the Director of Oil Properties.

With respect to the aforementioned leases, contracts and other agreements wherein the Board of Harbor Commissioners or the Board of Water Commissioners are parties thereto, the duties and functions pertaining thereto as shall devolve upon the City Council by reason of the provisions of this section may be delegated by the City Council to the City Manager or his designated representative from time to time, by ordinance, resolution or minute order. With respect to the duties and functions of the City Council relating to any other leases, contracts or other agreements, including cooperative or unit agreements, pertaining to the drilling for, developing, producing, extracting, processing, taking or removing, storing or disposing of oil, gas or other hydrocarbon substances entered into by the City of Long Beach pursuant to the provisions of this charter, such duties and functions may also be delegated by the City Council to the City Manager or his designated representative from time to time, by ordinance, resolution or minute order. A report of any action taken by the City Manager or his designated representative in accordance with such delegation by the City Council shall be submitted by the City Manager to the

City Council at its next regular meeting thereafter, and such action taken shall be deemed approved, confirmed and ratified, in the absence of action contrary thereto, by said City Council at said meeting.
