

Senate Bill No. 860

CHAPTER 429

An act to amend Section 1 of Chapter 594 of the Statutes of 1917, to amend Section 12 of Chapter 898 of the Statutes of 1997, to amend Section 5 of Chapter 734 of the Statutes of 2000, to amend Sections 2 and 9 of Chapter 543 of the Statutes of 2004, and to amend Sections 1 and 11 of Chapter 203 of the Statutes of 2009, relating to tidelands and submerged lands.

[Approved by Governor October 2, 2011. Filed with
Secretary of State October 2, 2011.]

LEGISLATIVE COUNSEL'S DIGEST

SB 860, Committee on Natural Resources and Water. Tidelands and submerged lands: public trust lands: mineral rights.

Existing law vests in various redevelopment agencies or authorities all of the state's rights, title, and interest in certain described trust lands and conveys these lands subject to the public trust.

Existing law approves an exchange of public trust lands within the lands conveyed, whereby certain trust lands or interests in lands that meet specified criteria and are not useful for public trust purposes are freed from the public trust and authorized to be conveyed into private ownership. Existing law authorizes certain other lands or interests in lands that are not now public trust lands and that are useful for public trust purposes to be made subject to the public trust.

Existing law requires the state to reserve from the grants made to each agency or authority, the state's interest or any portion of the state's interest, in any lands, all mineral and mineral rights in the lands, as provided.

This bill would clarify that the term lands, as used in this reservation by the state, refers to lands that are to be impressed with the public trust.

The bill would also clarify that if an agreement is entered into that provides for the quitclaim to the state by the other parties to that agreement of all mineral rights in the lands they own or may own that are to be impressed with the public trust, the state would be authorized to quitclaim all mineral rights in the lands that are to be freed of the public trust.

This bill would also make changes regarding the reconveyance of the trust lands to a local entity, the boundary description of trust lands, and a hazardous materials remediation with respect to some trust lands.

The bill would declare that certain changes are declaratory of existing law.

The people of the State of California do enact as follows:

SECTION 1. Section 1 of Chapter 594 of the Statutes of 1917, as amended by Section 2 of Chapter 734 of the Statutes of 2000, is amended to read:

Section 1. There is hereby granted to the City of Alameda (hereafter “city”), a municipal corporation of the State of California, and to its successors, all the right, title, and interest of the State of California, held by the state by virtue of its sovereignty, in and to all the salt marsh, tide and submerged lands, whether filled or unfilled, within the present boundaries of the city, and situated below the line of mean high tide of the Pacific Ocean, or of any harbor, estuary, bay, or inlet within the boundaries, to be forever held by the city, and by its successors, in trust for the uses and purposes, and upon the following express conditions:

(a) The city shall be the public trust administrator for all lands granted to it pursuant to this act (hereafter “granted lands”), and may use, conduct, operate, maintain, manage, administer, regulate, improve, lease, and control the lands and do all things necessary in connection with the lands that are in conformance with the terms of this act and the public trust for commerce, navigation, and fisheries.

(b) The granted lands shall be used by the city and its successors, solely for the establishment, improvement, and conduct of a harbor, and for the construction, maintenance, and operation thereon of wharves, docks, piers, slips, quays, warehouses, factories, storehouses, equipment, parking areas, streets, highways, bridges, pedestrian ways, landscaped areas, public buildings, public assembly and meeting places, convention centers, parks, museums, playgrounds, public recreation facilities (including, without limitation, public golf courses, marinas, restaurants, hotels, commercial recreation facilities, entertainment facilities and attractions), and any other utilities, structures, and appliances, provided the facilities are incidental to, or necessary or convenient for, the promotion, benefit, and accommodation of the purposes of the public trust.

(c) The city, or its successors, may not grant, convey, give, or alienate the granted lands, or any part thereof, to any individual, firm, or corporation for any purpose, except as provided in this section or otherwise provided by the Legislature. This subdivision shall not be construed as prohibiting the conveyance of any lands within the former Naval Air Station Alameda, including lands previously granted to the city and subsequently transferred to the United States, to the Alameda Reuse and Redevelopment Authority (hereafter “ARRA”) by the United States or the city, or as prohibiting the conveyance of any of those lands to the city by the United States or the ARRA.

(d) Notwithstanding the foregoing restriction on alienation, the city, or its successors, may grant franchises, permits, privileges, licenses, easements, or leasehold interests (hereafter collectively referred to as “leases”) in connection with the lands, or any part thereof, for limited periods, for purposes consistent with the trusts upon which the lands are held by the

State of California and this grant, for a term not exceeding 66 years. The city may establish other terms, conditions, and reservations in the leases, including a right to terminate with reversion to the city upon termination of any and all improvements thereon, as long as the terms, reservations, and conditions are consistent with the public trust and this act. The leases may include reservations for streets, sewer outlets, gas and oil mains, water systems, electric cables and wires, and other municipal purposes and uses deemed necessary by the city, upon compensation being made for the injury and damage done to any improvement or structure thereon.

(e) All moneys collected by the city arising out of the use or operation of any of the granted lands, including all revenues derived from leases or other rights to use or occupy the lands, shall be deposited into a special fund maintained by the city. The money in or belonging to the fund may be used only for uses and purposes consistent with the public trust for navigation, commerce, and fisheries, and the requirements of this act.

(f) The State of California shall have the right, together with the city if there is no lessee or licensee, or together with the lessee or licensee, if there is a lessee or licensee, to use, without charge, all wharves, docks, piers, slips, quays, or other improvements constructed on the granted lands or any part thereof, for any vessel or other watercraft, or railroad, owned or operated by the State of California.

(g) No discrimination in rates, tolls, or charges for use or in facilities for any use or service in connection with wharves, docks, piers, slips, or quays, or property operated by the city, or property leased, the use of which is dedicated by the lessee or licensee for a public use, shall ever be made, authorized, or permitted.

(h) There is hereby reserved in the people of the State of California the right to fish in the waters on which the lands may front, with the right of convenient access to the waters over the lands for that purpose. The enjoyment of access and right to fish shall be regulated by ordinance of the city so as not to interfere, obstruct, retard, or limit the right of navigation or the rights of lessees or licensees under lease or license given.

(i) The state hereby reserves all subsurface mineral deposits, including oil and gas deposits, together with the right of ingress and egress on the granted lands for exploration, drilling, and extraction of mineral, oil, and gas deposits. Those mineral rights, including the right of ingress and egress, shall not be exercised in a manner that would disturb or otherwise interfere with any lease of or on the granted lands. However, any lease of property shall contain a provision specifying at least one point from which, and the manner in which, the right of ingress or egress to subsurface deposits may be exercised, which point or points may be outside the area of the lease, provided the point or points are adequate to permit the rights reserved to the state to be exercised. Notwithstanding this subdivision, or Section 6401 of the Public Resources Code, the reservation shall not include the right of the state or its successors or assignees in connection with any mineral exploration, removal, or disposal activity, to conduct any mining activity of any nature whatsoever above a plane located 500 feet below the surface

of the lands without the prior written permission of any grantee of the lands or the grantee's successors or assignees. If a public trust exchange agreement authorized by Chapter 734 of the Statutes of 2000, as amended, provides for the quitclaim to the state of all mineral rights in the lands to be impressed with the public trust under the agreement, the state may quitclaim to ARRA or the city all mineral rights in the lands that are to be freed of the public trust under the agreement.

(j) Nothing in this act shall impair or affect any rights or obligations arising from leases conferring the right to use, occupy, or conduct operations upon or within the granted lands, provided the leases were lawfully entered into, consistent with any applicable public trust or other restrictions on use, prior to the effective date of this act.

SEC. 2. Section 12 of Chapter 898 of the Statutes of 1997 is amended to read:

Sec. 12. (a) If the Authority is dissolved, by operation of law or otherwise, all right, title, and interest of the Authority in the property and any improvements thereon, shall, by operation of law, devolve upon and vest in the City and County of San Francisco, and the City and County of San Francisco shall assume the management, conduct, and operation of and jurisdiction over the Trust Property, subject to the public trust for commerce, navigation, and fisheries, and the terms and conditions of this act, as amended.

(b) The Authority may transfer to the City and County of San Francisco some or all of the Trust Property if the State Lands Commission has approved the transfer. All of the right, title, and interest granted to the Authority under this act in any portion of the Trust Property transferred under this subdivision shall, upon transfer, be granted to and vest in the City and County of San Francisco, to be held subject to the public trust and the terms and conditions of this act.

(c) For purposes of this act, the City and County of San Francisco includes, but is not limited to, the City and County of San Francisco acting by and through its Port Commission.

SEC. 3. Section 5 of Chapter 734 of the Statutes of 2000 is amended to read:

Sec. 5. (a) The Legislature hereby approves an exchange of public trust lands within the NAS property, whereby certain public trust lands that are not now useful for public trust purposes are conveyed free of the public trust and certain other lands that are not now public trust lands and that are useful for public trust purposes are made subject to the public trust, resulting in a configuration of trust lands that is substantially similar to that shown on the diagram in Section 11 of this act, provided the exchange complies with the requirements of this act. The exchange is consistent with, and furthers the purposes of, the public trust and the granting act.

(b) The commission is authorized to carry out an exchange of public trust lands within the NAS property, in accordance with the requirements of this act. Pursuant to this authority, the commission shall establish appropriate procedures for effectuating the exchange. The procedures shall include

procedures for ensuring that lands are not exchanged into the trust until any necessary hazardous materials remediation for those lands has been completed, and may include, if appropriate, procedures for completing the exchange in phases.

(c) The precise boundaries of the lands to be taken out of the trust and the lands to be put into the trust pursuant to the exchange shall be determined by the commission. The commission shall not approve the exchange of any trust lands unless and until all of the following occur:

(1) The commission finds that the configuration of trust lands on the NAS property upon completion of the exchange will not differ significantly from the configuration shown on the diagram in Section 11 of this act, and includes all lands within the NAS property that are presently below mean high tide, excepting those portions of the NAS property that are to be retained by the federal government.

(2) The commission finds that, with respect to the trust exchange as finally configured and phased, the value of the lands to be exchanged into the trust is equal to or greater than the value of the lands to be exchanged out of the trust.

(3) The commission finds that, with respect to the trust exchange as finally configured and phased, the lands to be taken out of the trust have been filled and reclaimed, are cut off from access to navigable waters, are no longer needed or required for the promotion of the public trust, and constitute a relatively small portion of the lands originally granted to the city, and that the exchange will not result in substantial interference with trust uses and purposes.

(4) The exchange is approved by the entity or entities that, under the provisions of the granting act and this act, would be responsible for administering the public trust with respect to the lands to be exchanged into the trust, and those lands are accepted by such entity or entities subject to the public trust and the requirements of the granting act.

(d) The exchange authorized by this act is subject to additional conditions that the commission determines are necessary for the protection of the public trust. At a minimum, the commission shall establish conditions to ensure all of the following:

(1) Streets and other transportation facilities located on trust lands are designed to be compatible with the public trust.

(2) The north-south corridor described in subdivision (g) of Section 4 of this act functions as a public access corridor.

(3) Lands are not exchanged into the trust until any necessary hazardous materials remediation for those lands has been completed.

(e) All former or existing tide or submerged lands within the NAS property that have been conveyed to the ARRA or the city and for which the public trust has not been terminated, either by express act of the Legislature, exchange, or otherwise, and any lands exchanged into the trust pursuant to this act, shall be held, whether by the ARRA or by the city, subject to the public trust and the requirements of the granting act. Notwithstanding the provisions of the granting act, during any period in

which those lands are held by the ARRA, the ARRA, rather than the city, shall be the public trust administrator for the lands, and shall have the same powers, and be subject to the same requirements, as would the city under the granting act.

(f) Any lands exchanged out of the trust pursuant to this act shall be deemed free of the public trust and the requirements of the granting act.

(g) For purposes of effectuating the exchange authorized by this act, the commission is authorized to do the following:

(1) Receive and accept on behalf of the state any lands or interest in lands conveyed to the state by the ARRA or the city, including lands that are now and that will remain subject to the public trust.

(2) Convey to the ARRA or the city by patent all of the right, title, and interest of the state in lands that are to be free of the public trust upon completion of an exchange of lands as authorized by this act and as approved by the commission.

(3) Convey to the ARRA or the city by patent all of the right, title, and interest of the state in lands that are to be subject to the public trust, the terms of this act, and the granting act upon completion of an exchange of lands as authorized by this act and as approved by the commission, subject to the terms, conditions, and reservations that the commission determines are necessary to meet the requirements of subdivisions (d) and (e).

(h) For purposes of this section, the requirement to complete all necessary hazardous materials remediation shall be deemed satisfied with respect to the land to be impressed with the trust if either of the following occurs:

(1) All remedial action necessary to protect human health and the environment with respect to the hazardous substances on the land has been completed as determined in accordance with the Federal Facility Agreement for Alameda Naval Air Station between the United States Environmental Protection Agency, the United States Department of the Navy, and the State of California, as that agreement may be amended from time to time, and the United States has provided a warranty in accordance with Section 9620(h)(3)(A) of Title 42 of the United States Code.

(2) The United States has obtained a warranty deferral, approved by the Governor in accordance with Section 9620(h)(3)(C) of Title 42 of the United States Code, involving land for which the commission has determined to execute a certificate of acceptance of title, and the commission finds that sufficient liability measures and implementation measures will be in place upon the completion of the exchange. Prior to approving a warranty deferral, the Governor and the Department of Toxic Substances Control, the regional water quality control board, or other appropriate state oversight agency with expertise in hazardous materials remediation shall confer and consult with the commission to reasonably ensure that the terms of the warranty deferral and underlying documents and agreements provide sufficient standards and financial assurances to ensure that the remediation of any affected trust lands will be completed in a manner consistent with the intended public trust use of these lands and in a reasonable period of time.

SEC. 4. Section 2 of Chapter 543 of the Statutes of 2004 is amended to read:

Sec. 2. The following definitions apply for purposes of this act:

SEC. 7. Section 11 of Chapter 203 of the Statutes of 2009 is amended to read:

Sec. 11. The state shall reserve from the grant made in Section 6 of this act, and from any other conveyance pursuant to this act of the state’s interest, or any portion of the state’s interest, in any lands, all minerals and all mineral rights in those lands that are to be impressed with the public trust, of every kind and character now known to exist or hereafter discovered, including, but not limited to, oil and gas and rights thereto, together with the sole, exclusive, and perpetual right to explore for, remove, and dispose of those minerals by any means or methods suitable to the state or to its successors and assignees, except that, notwithstanding the Burton Act or Section 6401 of the Public Resources Code, this reservation shall not include the right of the state or its successors or assignees in connection with any mineral exploration, removal, or disposal activity, to do either of the following:

(a) Enter upon, use, or damage the surface of the lands or interfere with the use of the surface by a grantee or by the grantee’s successors or assignees. However, a lease, franchise, permit, or license of the property shall contain a provision specifying at least one point from which, and the manner in which, the right of ingress or egress to the subsurface deposits may be exercised, which point or points may be outside the area of the leasehold, franchise, permit, or license, as long as the point or points are adequate to permit the rights reserved to the state to be exercised.

(b) Conduct any mining activities of any nature whatsoever above a plane located 500 feet below the surface of the lands without the prior written permission of a grantee of the lands or the grantee’s successors or assignees.

(c) If an agreement authorized by this act provides for the quitclaim to the state by the other parties to that agreement of all mineral rights in the lands they own or may own that are to be impressed with the public trust, the state may quitclaim all mineral rights in the lands that are to be freed of the public trust under the agreement.

SEC. 8. The Legislature finds and declares that the amendments made by Sections 5, 6, and 7 of this act do not constitute a change in, but are declaratory of, existing law.
