

Staff Report 19

APPLICANT:

Andrew Sweet, Edward Sweet and Shelley Sweet, as trustees of the 1999 Sweet Family Residence Trust; Kevin Diede and Julie Diede; and Joy Neomi Venosa, surviving trustee of the Joseph Venosa and Joy Neomi Venosa Revocable Trust dated November 1, 1996

PROPOSED ACTION:

Issuance of a General Lease – Recreational Use.

AREA, LAND TYPE, AND LOCATION:

Sovereign land located in Lake Tahoe, adjacent to 8676 and 8678 Brockway Vista Ave, Kings Beach, Placer County (as shown in Figure 1).

Figure 1. Location

AUTHORIZED USE:

Use of an existing joint-use pier, two boat lifts, and two mooring buoys (as shown in Figure 2).

Figure 2. Site Map

NOTE: This depiction of the lease premises is based on unverified information provided by the Applicant or other parties and is not a waiver or limitation of any State interest in the subject or any other property.

TERM:

10 years, beginning July 10, 2024.

CONSIDERATION:

\$1,361 per year, with an annual Consumer Price Index adjustment.

SPECIFIC LEASE PROVISIONS:

- Liability insurance in an amount no less than \$1,000,000 per occurrence.
- Lessee expressly acknowledges that a permit or registration from the Tahoe Regional Planning Agency (TRPA) may be required for the Authorized Improvements and failure to obtain a permit or registration from TRPA and maintain compliance with that permit or registration may result in TRPA imposing civil penalties and will constitute a breach of this lease.
- The lease provides that signs shall be posted on each side of the pier to indicate passage and to provide the public with continuous shoreline access to the Public Trust Easement below elevation 6228.75 feet, Lake Tahoe Datum (LTD).
- Lessee shall not store any personal items or construct any improvements in the Public Trust easement which may impair the public's right of access for navigation, fishing, and Public Trust-consistent recreational uses.

STAFF ANALYSIS AND RECOMMENDATION:

AUTHORITY:

Public Resources Code sections 6005, 6216, 6301, 6501.1, 6503, 6503.5, and 6505.5; California Code of regulations, title 2, sections 2000 and 2003.

PUBLIC TRUST AND STATE'S BEST INTERESTS:

On April 23, 2015, the Commission authorized a General Lease – Recreational Use to Andrew Sweet, Edward Sweet and Shelley Sweet, as Trustees of the 1999 Sweet Family Residence Trust; Linda C. Youngs, Trustee of The George Avanesian and Patricia Avanesian Trust u/a/d December 21, 1992; and Joseph Venosa and Joy Neomi Venosa Revocable Trust Dated November 1, 1996, for the use and maintenance of an existing joint-use pier, two boat lifts, and two mooring buoys ([Item 10, April 23, 2015](#)). The Commission was not notified of an ownership change in 50 percent of one of the upland properties, 8678 Brockway Vista Avenue, from Linda C Youngs, Successor Trustee of The George Avanesian and Patricia Avanesian revocable Trust to the current owners, Kevin and Julie Diede, on February 18, 2016. The lease expired on July 9, 2024.

The Applicant is applying for a General Lease – Recreational Use for the use of a joint-use pier, two boat lifts, and two mooring buoys. On February 13, 2024, the two

boat lifts and two mooring buoys were registered with TRPA (Registration No. 10427).

Given that assignment of the existing lease was not sought at the time Kevin and Julie Diede obtained a 50 percent ownership interest in 8678 Brockway Vista Avenue, the provisions in the proposed new lease regarding indemnity will be extended to apply to the Diedes from February 18, 2016, when they acquired their ownership interest in that upland property, through July 9, 2024, the day before the proposed start of the new lease.

The joint-use pier, two boat lifts, and two mooring buoys have existed for many years at this location. The topography to the east of where the pier terminates landside is comprised of small pebbles and medium and large boulders. Public access on the west side of where the pier terminates landside would be difficult due to large boulders and foliage and is generally not traversable by pedestrian traffic. Nevertheless, the pier is built on pilings and public access for pedestrians is available over the pier. Applicant agrees to allow the public to pass and re-pass over the pier in the Public Trust easement. Signs are required to be posted on each side of the pier identifying the designated public passageway and are required to be in place at all times.

The joint-use pier, two boat lifts, and two mooring buoys are privately owned and maintained and facilitate recreational boating. Recreational boating is a water-dependent use that is generally consistent with the common law Public Trust Doctrine. The California Legislature has identified private recreational boating facilities as an authorized use of Public Trust Land. (Pub. Resources Code, § 6503.5.)

The buoys are located directly lakeward of the upland properties and occupy a relatively small area of the lake. The proposed lease does not alienate the State's fee simple interest or permanently impair public rights.

The lease is limited to a 10-year term, does not grant the lessee exclusive rights to the lease premises, and reserves an easement to the public for Public Trust-consistent uses. Upon termination of the lease, the lessee may be required to remove all improvements from state land and restore the lease premises to their original condition.

The proposed lease requires the lessee to insure the lease premises and indemnify the State for any liability incurred as a result of the lessee's activities thereon. The lease also requires the payment of annual rent to compensate the people of the State for the occupation of the public land involved.

CLIMATE CHANGE:

Climate change significantly affects inland non-tidal lakes such as Lake Tahoe. The frequency and severity of natural disasters like flooding, wildfire, drought, extreme heat, and storms are increasing throughout the state of California, including the Sierra Nevada mountains, and will continue to accelerate through the end of the century. Structures along the shores of inland lakes are particularly vulnerable to the more frequent and extreme weather events and shifts in seasonal characteristics.

According to [California's Fourth Climate Change Assessment](#), released in 2018, the most significant impacts of climate change in the Sierra Nevada Region are more intense heat, precipitation extremes, declining snowpacks, and changes in streamflow timing. The long-term warming trend will lead to warmer and shorter winters, and longer and drier summers. Successive dry and warm winters are resulting in minimal snowpack, increased winter streamflows and floods, and decreased spring and summer runoff. Prolonged low lake levels will become normal. Low lake level conditions can create more expansive beaches and increased shoreline access in dry months. However, these conditions interfere with boat launching and mooring facilities. This impact is most noticeable where the facilities are sited on shallow, low gradient lake bottom locations.

Dry winters will be punctuated with exceedingly wet years where prolonged and excessive precipitation can produce flash floods. High precipitation in these years will result in higher lake levels, causing beaches to narrow and reducing public access. Extra saturation of the soil can increase erosion, especially following intense wildfire seasons. Surface runoff water may carry more sediment into the lake, adversely impacting water quality and clarity.

Climate change may also lead to more intense and unpredictable storm events and winds. These storms may deviate from prevailing wind patterns for the region. These winds can accelerate shoreline erosion in some areas or cause erosion in areas not typically subject to erosion. Additionally, these winds can increase wave damage on structures and boats along the lake.

Improvements authorized under this lease may require more frequent inspection and maintenance to ensure they are not displaced during storm events. Watercraft moored to buoys, piers, or docks are also vulnerable to high wind events and damaging waves.

CONCLUSION:

For all the reasons above, staff believes the issuance of this lease will not substantially interfere with Public Trust needs at this location, at this time, and for the term of the proposed lease; is consistent with the common law Public Trust Doctrine; and is in the best interests of the State.

OTHER PERTINENT INFORMATION:

1. Approval or denial of the application is a discretionary action by the Commission. Each time the Commission approves or rejects a use of sovereign land, it exercises legislatively delegated authority and responsibility as trustee of the State's Public Trust lands as authorized by law. If the Commission denies the application the Applicant may be required to remove the improvements and return the premises to their original condition. The lessee has no right to a new lease or to renewal of any previous lease.
2. This action is consistent with the "Leading Climate Activism" and "Meeting Evolving Public Trust Needs" Strategic Focus Areas of the Commission's 2021-2025 Strategic Plan.
3. Staff recommends that the Commission find that this activity is exempt from the requirements of the California Environmental Quality Act (CEQA) as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; California Code of Regulations, title 14, section 15301.

Authority: Public Resources Code section 21084 and California Code of Regulations, title 14, section 15061.

RECOMMENDED ACTION:

It is recommended that the Commission:

CEQA FINDING:

Find that the activity is exempt from the requirements of CEQA pursuant to California Code of Regulations, title 14, section 15061 as a categorically exempt project, Class 1, Existing Facilities; California Code of Regulations, title 14, section 15301.

PUBLIC TRUST AND STATE'S BEST INTERESTS:

Find that the proposed lease will not substantially impair the public rights to navigation and fishing or substantially interfere with Public Trust needs and values at this location, at this time, and for the term of the lease; is consistent with the common law Public Trust Doctrine; and is in the best interests of the State.

AUTHORIZATION:

Authorize issuance of a General Lease – Recreational Use to the Applicant beginning July 10, 2024, for a term of 10 years, for use of a joint-use pier, two boat lifts, and two mooring buoys; annual rent in the amount of \$1,361, with an annual Consumer Price Index adjustment; and liability insurance in an amount no less than \$1,000,000 per occurrence.
