CONSIDERATION OF RETROCESSION OF JURISDICTION AT NAVAL STATION, TREASURE ISLAND AND YERBA BUENA ISLAND, SAN FRANCISCO COUNTY AND ESTABLISHMENT OF CONCURRENT JURISDICTION

BACKGROUND:

Under Government Code Section 113, the Legislature has granted the Commission the authority to accept a retrocession of legislative jurisdiction from the United States upon receipt of a written request and an agreement to pay the costs associated with the retrocession. The statute also provides for the establishment of concurrent jurisdiction.

By letter dated May 14, 1997 the United States requested that the Commission accept a retrocession of exclusive and partial legislative jurisdiction over 989.08 acres of land at the Naval Station, Treasure Island and Yerba Buena Island, San Francisco County. The United States further requested that the Commission establish concurrent legislative jurisdiction over the same area. The United States has agreed to pay the costs associated with the retrocession.

Pursuant to Government Code Section 113, a notice of hearing on the proposed retrocession and establishment of concurrent jurisdiction was published in a local newspaper. Notice was also served on the Clerk for the Board of Supervisors of San Francisco County. The hearing was held as scheduled on June 20, 1997 in the offices of the Commission. Members of the U. S. Navy, the City of San Francisco appeared.

The United States believes this action is necessary because it is closing these facilities and leasing portions of them to the local reuse authority with the intent of making an eventual conveyance of the properties to it. The retrocession "will allow State and local law enforcement to be made available to ensure proper protection of the property. This change in jurisdiction will also promote redevelopment of these islands to commercial uses under the Defense Base Closure and Realignment (BRAC) process." The City and the County are supportive of the action.

The retrocession and establishment of concurrent jurisdiction will be effective upon
