Section 1: Pre-Survey Notification Package. Please use the boxes below to verify that the required documents are included in the Pre-Survey Notification Package:

- ☒ Pre-Survey Notification Form
- ☒ Navigation chart, as well as GPS coordinates or a shapefile for proposed track lines (bounding coordinates for the survey area are acceptable if track lines are not known; all coordinates should be in decimal degrees)
- ☒ Résumé(s) of Marine Wildlife Monitor(s)

Section 2: Pre-Survey Notices. Please use the boxes below to verify that notifications have been sent to the following:

- ☐ U.S. Coast Guard Local Notice to Mariners
- ☐ Harbormasters' offices of regional harbors near the survey area

Section 3: Survey Details.Date(s) of operation (survey window): 9-6-25 to 9-21-25Number of survey days (approximate): 14Survey location: Offshore central California, from San Simeon to south of Point SalHours of operation: daylight hours: daybreak to early afternoon

Survey purpose/objective:

The purpose of this survey is for the U.S. Geological Survey to collect low energy chirp sub-bottom profiles along the Hosgri, Los Osos, Shoreline, Casmalia, and Lion's Head fault zones to evaluate fault and earthquake hazards to the central CA coast, including the Diablo Canyon Nuclear Power Plant. Sub-bottom images will provide insight into fault activity and reveal potential targets for future sediment sampling to constrain the ages of past earthquakes and better understand recurrence intervals.

Section 6: Safety Zones. For surveys operating equipment at a frequency < 200kHz, a safety zone around the sound source is required. The size of the safety zone is based on the modeled or calculated distance to the 160 dB (rms) threshold, as outlined in Section 2100.07 (a)(5)(D) of the Geophysical Survey Permit Program's regulations. Please list the equipment-specific safety zones below.

Equipment type	Safety Zone
Edgetech 2300-516 chirp	< 5 m or de minimis

Section 7: Pinniped Haul-Out Sites, Marine Protected Areas (MPAs), and Other Permits/Authorizations. Please provide answers to the following:

Are there pinniped haul-out sites within or near the survey area? If yes, please provide the location of and distance to the haul-out site(s).

There are a number of haul-out sites along the coast near the survey region, however we will not be surveying within 1000 m of any of these.

Are there MPAs within or near the survey area? If yes, please provide the location of and distance to the MPA(s).

Morro Bay SMRMA. Point Buchon SMR and SMCA. We were told by Lara Slatoff at CA Department of Fish and Wildlife that an SCP was not required for the work we proposed in these regions. We can provide a copy of this exchange if requested.

Were other permits or authorizations obtained from Federal or State agencies (e.g., from the California Department of Fish and Wildlife for work in or near MPAs)? If yes, please provide the type of permit and issuing agency.

We are working on permit from NOAA for Chumash National Marine Sanctuary.

Section 8: Fishing Gear Conflicts. If different from the person identified on Page 1, please provide the phone number and email address for the point of contact within your organization in the event of equipment entanglement with fishing gear.
