Chair Kounalakis and Commissioners  
California State Lands Commission  
100 Howe Avenue, Suite 100 South  
Sacramento, CA 95825

Submitted via E-Mail to [CSLC.CommissionMeetings@slc.ca.gov](mailto:CSLC.CommissionMeetings@slc.ca.gov)

**Re: Hearing on the State Oil and Gas Leases PRC 1824 and PRC 3150  
Terminations and 4H Shell Mounds Disposition**

Dear Chair Kounalakis and Commissioners:

The Board of Get Oil Out! respectfully requests that the above Item on the State Oil and Gas Leases PRC 1824 and PRC 3150 Terminations and 4H Shell Mounds Disposition currently slated for the State Lands Commission hearing on December 16<sup>th</sup> be postponed.

As stated in the letter of November 21, 2025 from the Environmental Defense Center, there is a direct conflict with the December 16 hearing date as the Santa Barbara County Board of Supervisors is holding an appeal hearing that same day related to the Sable Offshore Corp./Santa Ynez Unit restart matter. As appellants in the County matter, GOO! must attend the Board hearing and as such, are prevented from participating in the CSLC hearing at the same time.

GOO! has been working on this issue for more than thirty years. There is no reason to rush to push this item through, especially given the entirely deficient analysis of environmental impacts in the 2025 Report.

Again, the Board of Directors of GOO! urges you to reschedule this item to a future State Lands Commission hearing after the holidays.

Sincerely,

Michael Lyons,  
President, Get Oil Out!

Attention: This email originated from outside of SLC and should be treated with extra caution.

Dear Chair and Commissioners,

We respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. This issue marks the first of many important decommissioning decisions and deserves robust public participation. Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which we, as citizens of Santa Barbara County, plan to attend. Please reschedule this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations.

Sincerely,

David and Susan Allen

Dear Chair and Commissioners,

The issue of decommissioning offshore oil is a big one in my community, where the lights of the rigs still twinkle off Santa Barbara every night, despite being out of action for a decade now. Who will be paying to dismantle those undersea towers? Or will they continue to crumble? I respectfully request that you postpone or reschedule Agenda Item No. 106, the item considering granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1.

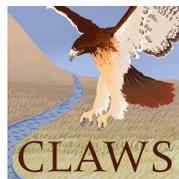

This will be the first of many important decommissioning decisions and deserves robust public participation. My own organization sees it as urgent. Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which we'll be attending.

Please reschedule this item to a date that will allow for greater participation from the dedicated coastal community members, nonprofits and environmental organizations that protect our coast.

Sincerely,

Nancy Black

Dear Chair and Commissioners,

I respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. This issue marks the first of many important decommissioning decisions and deserves robust public participation. Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which many of us are committed to attend. Please reschedule this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations.

Sincerely,

Dear Chair and Commissioners,

On behalf of The Climate Center and our thousands of supporters in California, I respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1.

This issue marks the first of many important decommissioning decisions and deserves robust public participation. Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which some in our community plan to attend.

The Climate Center is a climate and energy policy non-profit working to rapidly reduce climate pollution at scale. We are a think tank/do tank working collaboratively for accelerated, equitable climate policy in California. We know that as goes California, so goes the world. With the climate crisis rapidly worsening, we engage in cross-sector coalitions to enact bold, science-based policy that sparks innovation and channels market forces for speed and scale greenhouse gas (GHG) reductions to benefit everyone.

Thank you in advance for rescheduling this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations.

Sincerely,  
Ellie Cohen

Chair and Commissioners,

I strongly urge you to continue Agenda Item No. 106 to a later meeting date. This item relates to Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. Decommissioning is a significant action that deserves robust public participation.

This item is currently scheduled on the same day as the court-ordered Sable hearing to be held by the Santa Barbara County Board of Supervisors. Please reschedule this item to a date that will allow community members and environmental organizations to meaningfully participate in your deliberations.

Sincerely,

Steven Colome, Sc.D.

Attention: This email originated from outside of SLC and should be treated with extra caution.

Dear Chair and Commissioners,

I respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. This issue marks the first of many important decommissioning decisions and deserves robust public participation. Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which many of us are committed to attend. Please reschedule this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations.

Sincerely,  
Lloyd DeArmond

Dear Chair and Commissioners,

Hello,

My name is Maureen Ellenberger. I live in Santa Barbara and I am the Chair of the Sierra Club Santa Barbara Ventura Chapter representing over 8000 members and environmentalists. We have been battling Big Oil on our coast since the SB major oil spill in 1969. Today we are actively engaged in fighting Sable /Exxon from restarting the pipeline that spilled at Refugio State Beach in 2015. We have a court ordered hearing at the SB County Supervisor's meeting on December 16th at the same time as your meeting regarding the Chevron mounds which is also of critical importance to us and we would like to participate in that discussion with you.

Since we cannot be in two places at once,

I respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. This issue marks the first of many important decommissioning decisions and deserves robust public participation. Please reschedule this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations.

Sincerely,

Maureen Ellenberger  
Chair, Sierra Club  
Santa Barbara Ventura Chapter

Dear Chair and Commissioners,

I have been aware of the Sable Oil hearing for some time but just learned about your Lease Termination meeting today. Both are now scheduled for the same day. Please continue to a later meeting date Agenda Item No. 106 regarding Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1.

Both are oil issues and both decommissioning and lease termination are very important to those of us following local oil issues. Many have been attending the Sable meetings and very much want to be part of the public's participation in both but cannot be 2 places at the same time.

Can you please reschedule the meeting on the Lease Termination Agreements so Santa Barbara County residents, who will be those most impacted by each of these decisions, can have full input on both?

Sincerely,

Nancy Emerson, Santa Barbara County resident

Sensitivity: Normal

---

**Attention:** This email originated from outside of SLC and should be treated with extra caution.

Greetings,

i learned today state lands is considering on 12/16/2025, by item 106, certain Lease Termination Agreements for certain leases, including 1824.1, 3150.1 and 7911.1.

in this matter it is important to consider and address what actions are required or permitted to be taken by the lessees in connection any termination agreement. i haven't had the opportunity to review any draft agreements terms.

but the principal points you need to reflect upon and consider are, i should think:

firstly, consider the methodology that has been employed, or will be employed, and by whom will such be conducted, to determine the cost of restoration of the site area to its condition ante and before any drilling or other activity by the lessee took place on each site per the terms of the leases has taken place,

secondly, determine that cost, or such portion of it as is the responsibility of the lessee per the lease terms,

secondly, what are the environmental impacts of requiring full restoration of the sites pursuant to the lease terms,

thirdly, what are the environmental impacts of requiring any partial restorations of the sites pursuant to the lease terms,

fourthly, what is the cost of the restoration if SLC determines only a partial restoration is appropriate and sufficient, if SLC so determines such is the preferred path,

thirdly, based on any difference between the cost of full restoration under the lease terms and whatever restoration the SLC determines should actually be undertaken by the lessee, or others, in what amount is the check should the lessee must and will pay to SLC or the state of California for the difference. that amount could likely be considered its obligation under the lease terms if SLC determines that only a partial restoration is indicated based on review of environmental impact analysis.

of course in making cost determinations, inflation is a factor to be included in the analysis.

thank you for your attention to these views

Kenneth E. Falstrom

**Attention:** This email originated from outside of SLC and should be treated with extra caution.

Chevron has more than enough money to take care of this and if there is any pushback, I suggest that their operations in Kern County should be suspended.

Shocking that renewable energy projects have to put up a bond to cover future decommissioning costs and yet the oil companies do not.

At a minimum they should be a significant fine for these delays.

**Attention:** This email originated from outside of SLC and should be treated with extra caution.

Dear Chair and Commissioners, I respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. This issue marks the first of many important decommissioning decisions and deserves robust public participation. Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which many of us are committed to attend. Please reschedule this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations. Sincerely,

*Gerri French, MS, Dietitian*

Dear Chair and Commissioners,

I respectfully request, as a Santa Barbara resident, that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1.

This issue marks the first of many important decommissioning decisions and deserves robust public participation. But unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which many residents are already committed to attend.

Please reschedule this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations. The community deserves to be heard.

Sincerely,

Bryony Gagan

**Subject:** Agenda Item 106, please continue to a new date  
**Sensitivity:** Normal

---

**Attention:** This email originated from outside of SLC and should be treated with extra caution.

Dear Chair and Commissioners,

Please continue to a new meeting date the California State Lands Commission Agenda Item 106 on December 16, 2025. The public recognizes this as a critical consideration of granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1.

The court mandated Sable Oil hearing before the Santa Barbara County Board of Supervisors is on the same date as this very important agenda item. As a result, many members of the public and environmental advocates will miss the CSLC hearing, the first critical decommissioning decision over Chevron's oil and gas lease obligations--that is--their responsibility for site clean-up after decommission.

Please set a precedent that is fair to the voices of the public, as these decommissions begin.

Sincerely,

Elizabeth Gaspar, Santa Barbara

Dear Chair and Commissioners,

I respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. As currently scheduled, this item is set to be heard on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors. Please reschedule this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations.

It's not like there's anything massively urgent. I spoke in front of this body 22 years ago about the Chevron shell mounds and the need to have them completely removed. If you can go this long without resolving the issue, it can wait another couple of weeks.

Sincerely,

Lee E Heller, PhD, JD  
Santa Barbara CA

Dear Chair and Commissioners,

I respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. This issue marks the first of many important decommissioning decisions and deserves robust public participation.

Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which many of us are committed to attend. Please reschedule this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations.

Sincerely,

Julia Lara

Dear Chair and Commissioners,

I am writing to ask that Agenda item No. 106 be continued to a later date.

Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which many of us are committed to attend.

Item No. 106 marks the first of many important decommissioning decisions for our coast and robust public participation is warranted and expected.

I sincerely and respectfully ask that this item be rescheduled to a date that will allow coastal community members and environmental organizations to meaningfully participate in these important deliberations.

With much appreciation,

Kate Larramendy

Dear Chair and Commissioners,

I would greatly appreciate the continuance of the above matter to a later meeting date for Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. This issue marks the first of many important decommissioning decisions and deserves robust public participation.

Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which many concerned individuals and stakeholders are committed to attend.

It is logistically impossible for me to attend both sessions given the same day scheduling. Please reschedule this item to a date that will allow concerned individuals such as myself along with coastal community members and environmental organizations to meaningfully participate in your deliberations.

Best regards,

Richard Nahas

Dear Chair and Commissioners,

When I moved to Santa Barbara in 2003 to teach Coastal and Ocean Law and Policy at UCSB's Bren School and Environmental Studies Program, I attending what I recall was a State Lands Commission workshop format aimed to decide who, when and how to remove the shell mounds under the offshore drill rigs. It was unquestionably the most contentious set of meetings I have ever attended, and I've been to many. Now, over 20 years later, you are in a huge rush to hold a decommissioning meeting, including what to do about the toxic heaps on the ocean floor under these wells.

I also remember years ago that the oil companies promised that when the wells were done or the leases expired, they promised to clean up and leave the ocean as pristine as when they first drilled!! I was already a coastal and ocean advocate then. So now you are about to let the companies off the hook and set a hearing/meeting date that puts our leading Environmental Defense Center and their lawyers and the whole community in a bind.

Therefore, I respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. This issue marks the first of many important decommissioning decisions and deserves robust public participation. Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which many of us are committed to attend. Please reschedule this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations.

After 20+ years, you could easily select a date that enables our coastal community to be present.

Sincerely,

Gail Osherenko  
Santa Barbara, California

Dear Chair and Commissioners,

Issues regarding the oil industry are of paramount importance to many in the Santa Barbara area. At present, you have scheduled a hearing on Chevron's decommissioning of their offshore drilling platform mounds off Summerland (for oil and gas leases 1824.1, 3150.1, and 7911.1) on 16 December 2025. Unfortunately, that is the same day as a court-ordered Santa Barbara County Board of Supervisors' hearing on proposed oil development by Sable Oil.

Many would like to address both issues, but that won't be possible unless you would be willing to continue Item No. 106 to a later date. Given that many similar hearings on platform decommissioning will follow, it is important to have full public participation in this first such hearing. Please reschedule the Chevron hearing to accommodate all those who wish to weigh in on the matter in person.

Thank you,

Deane Plaister

Dear Chair and Commissioners,

I am writing to ask you to continue Agenda Item No. 106 to a later meeting. Your considering granting authority anyone to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. is a decision that merits full public participation and study.

Most would agree that scheduling this No. 106 item overlapping with court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, would create a conflict, preventing many from attending one or the other.

I respectfully request that item No. 106 be rescheduled to a later date to allow coastal community members and organizations to fully participate and provide input to your deliberations.

Thank you for giving careful consideration to this request that you ensure public participation on this and other important matters.

Sincerely,

George Relles

Dear Chair and Commissioners,

I reside and vote in Carpinteria.

I intend to be present at the *court-ordered* Sable hearing in Santa Maria on 12/16. I would also like to participate in your body's hearing on Agenda item #106, but the current scheduling of it on 12/16 presents a conflict. I believe many others are facing this conflict.

Since your hearing is not court-ordered, but is an *administrative docketing*, you are easily able to reschedule that item without approval from any other official body.

You should do so, and avoid any questions that your ultimate decision on the merits is tainted by a lack of meaningful public participation.

Sincerely,

Bob Richards  
Carpinteria

Attention: This email originated from outside of SLC and should be treated with extra caution.

Dear Chair and Commissioners,

I respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. This issue marks the first of many important decommissioning decisions and deserves robust public participation. Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which many of us are committed to attend. Please reschedule this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations. It is important to get as much input as possible regarding a decision of this magnitude.

Sincerely,  
David Rowell

*Dear Chair and Commissioners,*

*As a student who is deeply committed to these issues, I respectfully request that you postpone Agenda Item No. 106, which concerns granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1, to a future meeting. This decision constitutes a significant step in the decommissioning process and warrants comprehensive public engagement. As an invested member of the community, I am concerned that other residents of Santa Barbara may be unable to participate in this important decision. The current meeting coincides with the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which limits the ability of many passionate supporters to attend and contribute. I respectfully urge you to consider rescheduling this agenda item to ensure that those most affected and invested in Santa Barbara's future sustainability can participate meaningfully in your deliberations.*

*Sincerely,*

*Sunny Saal (Student, Trivium Charter School)*

*Dear Chair and Commissioners,*

*I respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. This issue marks the first of many important decommissioning decisions and deserves robust public participation. Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which many of us are committed to attend. Please reschedule this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations.*

*Sincerely,*

*Linda Solin*

Dear Chair and Commissioners,

My name is Mariza Sullivan, I am a member of the Coastal Band of the Chumash Nation and former Tribal Chair. I am respectfully requesting that you continue to a later meeting date Agenda item 106 to consider granting authority to the Executive Officer or designee to execute Lease determination Agreements for oil and gas leases 1824,.1, 3150.1 and 7911.11. Opportunities for the public to participate in these important decommissioning decisions are oftentimes the only opportunity that we, as Chumash People, have to provide input regarding the care of our unceded homelands. Unfortunately, your scheduled meeting is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which many of us are committed to attend.

I implore you to reschedule this item to another date that will allow our coastal community members, and the environmental organizations that have assisted us in protecting and preserving our unceded homelands and waterway to participate. It's important for us to be able to show up as we have been and I hope that the CSLC will support our efforts in this way by continuing the Agenda item to a later date so that we can continue to participate in a meaningful way in the deliberations.

Respectfully,

Mariza Sullivan  
Coastal Band of the Chumash Nation

Dear Chair and Commissioners,

I respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. This issue marks the first of many important decommissioning decisions and deserves robust public participation. Unfortunately, the item is currently scheduled on the same day as the court-ordered Sable hearing before the Santa Barbara County Board of Supervisors, which many of us are committed to attend. Please reschedule this item to a date that will allow coastal community members and environmental organizations to meaningfully participate in your deliberations.

Sincerely,

**Attention:** This email originated from outside of SLC and should be treated with extra caution.

Dear Chair and Commissioners,

I just learned that, for some unconscionable reason, CSLC will consider letting ***Chevron walk away from their oil and gas lease obligations without cleaning up their mess on the ocean floor in Summerland, CA.*** *Why on Earth would you do that???* *Chevron is a greedy, irresponsible, destructive, immoral, insensitive corporation only interested in their profits at the expense of our lands, waters, the public and the environment.* When Chevron removed four platforms from offshore Summerland in the 90's, the company left behind large [mounds of toxic debris](#) containing chemicals, measuring up to 250 feet in diameter and 28 feet tall. These mounds remain on our ocean floor today, and consist of mollusk shells, drilling muds and cuttings, caissons, and pipeline components.

This is one of the **first major decommissioning decisions** for our coast and deserves strong public participation. You must give the public a chance to be heard about this catastrophic decision that would place the burden of cleaning up these toxic environmental messes (in the millions of dollars) onto California tax payers. That IS NOT an option. But **CSLC set the hearing for the same day as the Sable hearing before the Santa Barbara County Board of Supervisors.** [We can't be in two places at once.](#)

Environmental groups repeatedly asked CSLC to move this agenda item to a later date, and even First District Supervisor Roy Lee has requested a date change.

*I respectfully request that you continue to a later meeting date Agenda Item No. 106 to consider granting authority to the Executive Officer or designee to execute Lease Termination Agreements for oil and gas leases 1824.1, 3150.1, and 7911.1. As a former Coastal Commissioner and former Chief Deputy County Counsel for the County of Santa Barbara with over 35 years involvement/decisionmaking and advocacy on offshore oil issues, I do not understand why the Commission has scheduled this extremely important Santa Barbara County issue for a date you know that the lead representatives of our environmental community cannot attend *because they have to be in Santa Barbara to represent the public on an equally significant issue*. The State must insist that these oil companies fully remediate for their activities. EDC is uniquely qualified to help make sure that happens.

Sincerely,

Jana Zimmer
