NOTICE OF PUBLIC REVIEW AND INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION

(CEQA Guidelines, sections 15072 and 15073)

A Mitigated Negative Declaration (MND) has been prepared by the California State Lands Commission (CSLC), as lead agency under the California Environmental Quality Act (CEQA) (Pub. Resources Code, § 21000 et seq.) in response to an application submitted by the Pacific Gas and Electric Company (PG&E) for the Pacific Gas & Electric Company Rio Dell Feeder 352395524 Project (Project). The MND was prepared in compliance with the requirements of CEQA, the CEQA Guidelines (Cal. Code Regs., tit. 14, § 15000 et seq.), and CSLC regulations (Cal. Code Regs., tit. 2, § 2901 et seq.).

Project Title: Pacific Gas & Electric Company Rio Dell Feeder 352395524 Project

Project Location: The Project site is to the north and south of, and underneath, the Eel River in the City of Rio Dell in Humboldt County, California.

Project Description: PG&E proposes to install two 20-inch-diameter conduit casings, each being 1,400 linear feet in length, using Horizontal Directional Drilling technique under the Eel River, in the City of Rio Dell. One conduit will carry PG&E's electric line and connect to the existing distribution lines and the

existing Rio Dell Substation. The second conduit will remain empty but be available for a future distribution line.

The Project MND can be downloaded, in PDF format, at www.slc.ca.gov/ceqa/pge-rio-dell-feeder-352395524/ and viewed electronically at the locations below.¹ Please contact Sarah Mongano (contact information below) if you would like to receive a hard copy.
